Dear Alla Shlykova,

I'm pleased to send Korean comments to your request.

Korea's Heads of Delegation reviewed the sent proposal for the project " Digital identity standardization for trade facilitation", and Korea thought the proposed project topic was very meaningful.

In this regard, Korea's Heads of Delegation are willing to be happy to support this project and hope this will proceed well.

If you have any additional things, please contact me anytime.

Dear Tasheen,
I'm sending an email regarding supporting the UN/CEFACT project to UN/CEFACT.
If you need another thing, please let me know.

Thanks.

Best Regards,
Kyeongrim (Kerri) Ahn, from Korea Head of Delegation

I am attaching the project proposal document which is approved by UN/CEFACT Bureau. The project is supported by eDATA Management domain of UN/CEFACT which is my responsibility as Vice Chair of UN/CEFACT. I hope this answers your query.

With best wishes,

Tahseen

Dear Tahseen,

I'm happy to hear from you and sorry for my late answer.

I clicked the URL address for the project in the UN/CEFACT email to find the project proposal, but I got an error.

So, could you give me the project proposal or correct URL address for the digital identity standardization for the trade facilitation project?
Then, I will give you an answer after discussing it with KISA.

One more question, who does this project propose?

I look forward to hearing from you. Thanks.

Best Regards,
Kerri Ahn

All projects that aim to create either a Recommendation, a Business Standard or a Technical Specification require three Head of Delegation support in order to be launched. This support does **not** imply that your organization or your delegation bring resources to this topic, although that is greatly appreciated for all projects when possible. This support does recognize that this topic is relevant to the scope and mandate of UN/CEFACT and that it would be a positive addition in our deliverables.

As a UN/CEFACT Head of Delegation, would you please consider bringing your support to this project so that it may start?

Just a return email stating your support would be sufficient.

If you do not wish to support this project, no action is required.

Thank you in advance for your consideration and continued support.
Best regards,

Alla Shlykova
