Apologies - yes - we support the logistics pipeline data structure proposal which is open at the moment.

Been flying through emails today. Mistyped from my records.

Subject: RE: UK support for "MMT Multimodal Transport Data Reference Model" project

Thanks very much George.

Did you perhaps mean the Logistics Pipeline Data Structure project, attached?

Your support of the MMT project was already recorded and you are in fact the proposer of that project. It was approved as a project over a year ago and I believe is making good project to get to project exit, I hope, before the Plenary.

The Pipeline project is more recent and currently seeking HoD support.

Cheers,
Lance
