I never got any feedback on this from Lou, or Sue.

As I mentioned , seems to be a worthwhile project, and I'll throw my support for it. That said, it does need the broader context

Hi John,

Have you had the opportunity to give any thought to the below project?

We would greatly appreciate US HoD support in order to launch the project, if that is possible.

Thanks very much in advance for your consideration.

Have a good day.

Subject: 33t UN/CEFACT Smart container project

Hi John,

Very good talking with you this afternoon. Thanks for taking the time.

As discussed, I believe that the following project on Smart Containers would be of interest to the US and

we would appreciate your consideration in supporting this project officially as US HoD.
