31st UN/CEFACT Forum

Technical Support on UN/FLUX Implementation

Towards a Training Support Team

Lic. Diego Nuñez Glutz MSc
Fisheries Information Area Manager, Uruguay

INTRODUCTION

- Some questions for a main problem to solve:
Many emergent countries all over the world do not have a Revenue management Software for their national fishing goods.
- FLUX could be a good tool for different data ?
- As was created as a global standard with geographical coverage, can be shared to many countries outside EU?

THE URUGUAYAN EXPERIENCE

- DINARA created a legal framework to define its role as a port Authority.

<http://www.mgap.gub.uy/unidad-organizativa/direccion-nacional-de-recursos-acuaticos/pesca/informacion-para-empresas-pesqueras/medidas-del-estado-rector-del-puerto>

- Administration of the entrance of the 3rd Flag countries vessels to our port.
- One-Stop shop for foreign Commerce (VUCE).

<http://vuce.gub.uy/> (Web in Spanish)

CONNECTION between databases structures FLUX-VUCE-FLUX

Latinoamerican Network for the fighting against IUU fishing

- 34 potential Countries in South, Central and North America.
- Political, socioeconomical and organizational different realities in their Fisheries Management.
- Common Spanish language and Portuguese.
- Two Oceans and many different fishing strategies depending on their fisheries resources.
- We have “a need”, a tool which can join all the data in a common system.
- Could be FLUX a suitable source for it?

OBJECTIVES

- The proposal to create a Training Support Team producing
 - E-learning platform
 - Uploading advances of the system
 - Tutorials, excercises and documents
 - On-line support workshops and meetings to solve common problems
 - Products for differents FAO projects: Global Record, PSMA, CDS, Transhipment directices.
 - Biodiversity and Fisheries Resources Conservation
 - Scientific investigation
 - Cooperation between users in differents countries

TRAINING EXPERTS TEAM (Flux TET)

- The importance of exchange information and communication in a same mother tongue
- Knowledge of hierarchical procedures designed under EU. The unique global initiative
 - UNCEFACT
 - DGMARE
 - EFCA
 - FOCUS
 - UNECE

PERSPECTIVES

- Develop a Flux-TET under the team of specialists on sustainable fisheries UN/CEFACT
 - Multidisciplinary group
 - From different agencies that are now working on it
- The role of the RFMOs
 - With their own Fisheries Management systems
- The background of FAO projects actually developing with countries and RFMOs
 - Global Record
 - PSMA
 - CDS

The challenge of FUND

- Interactive into main projects
 - UN/CEFACT
 - UNECE
 - FAO
- Inclusion into Agencies developing projects
- Interaction into RFMOs projects
- Other donors

Thanks!
