Dear Lance,

I am sorry for my late response. We had our annual conference at the end of January and then I was 2 weeks off for vacation.

As HoD from Germany I do give my support to the project.
 Is this email sufficient or do you need a more formal letter of approval?

Best regards

Jörg

Dear Jorg,

Have you had an opportunity to consider the below request?
 Could you please bring your HoD support to the BSP RDM project so that the project may be launched?

Thank you very much in advance.

Best regards,

Lance

Hi Jorg,

I hope that this new year has started off well for you. Busy on this side, but that is good.

Some exciting news from UN/CEFACT: the Bureau has just approved a new project to create a Reference Data Model covering all of the Buy-Ship-Pay area, pending the 3 HoD support.

A new expert from Greece, Zisi, was approved as project leader and he will hopefully be joining more of our technical work in the future. And it will be under the responsibility of VC Probert.

I attach the project proposal for your consideration.

VC Probert is in copy if you have any questions on the project itself or if you would like to propose experts to participate.

Would you kindly consider supporting this project as German HoD?

Thank you in advance for your rapid reply.

Best regards,

Lance

The banner features a green background with a white logo on the left consisting of a stylized 'C' with a dot, followed by the text 'VDA TECHNISCHER KONGRESS 2018'. Below this is a white line-art illustration of a city skyline with a prominent tower. The main text on the right is in white and reads: 'Treffen Sie die Entscheider der Automobilbranche' and 'Meet the Top Innovators and Decision Makers of the Automotive Sector'. At the bottom right, it says '27./28. Februar 2018, Maritim Hotel Berlin'. A green circular badge in the top right corner contains the text 'Jetzt anmelden! Register now!'.
