**Betreff:** 33t IMO FAL project

Dear Jorg,

I am writing to you in your capacity as UN/CEFACT Head of Delegation.

The UN/CEFACT Bureau recently approved a project proposal to make the technical messages for the IMO FAL Compendium using UN/CEFACT standards.

This is a very important future message which will help to easily go from UN/EDIFACT to XML for these messages, greatly helping the trading community -- and it will also allow easy connections with the World Customs Organization messages.

According to our procedures, we require three countries to support the launch of a project.

The project proposal is attached for your convenience.

Would you kindly consider bringing your HoD support to the launch of this project?

There is no form for such support, just a return email stating your support would be sufficient.

Thank you very much in advance for your consideration.

Best regards,

Lance
