Dear Lance,

After checking with our national expert Rudi Bauer, I am able to confirm the HoD support for the project "Development of electronic data exchange structures for the transport and logistics sector suitable for exchanging via mobile communication technologies".

Best regards,
Christian

Dear Christian,

The secretariat will require a written confirmation of your support of the project which was formerly called electronic Bill of Delivery.

Just a confirmation email by return would be sufficient.

Thank you in advance for sending this to us quickly so that the project can start officially.

Best regards,
Lance

Subject: 33t revised eBOD project - request confirmation of HOD support

Dear Christian,

You had brought your support to a project called electronic Bill of Delivery. After a lot of review and bilateral discussions between the proposers and the Bureau, a revised version of this project proposal was approved by the Bureau, with the knowledge of the project proposers. However, this is very different from the original project that you brought your support to.

I am attaching the updated version of the project proposal as it was approved by the Bureau. Would you please confirm your support of this project in its updated form?

Thank you very much in advance.

Best regards,

Lance
