Dear Ishigaki-san,

The secretariat is still waiting on confirmation from the Japan HoD that they maintain their support on the attached project proposal.

The project team is waiting on this confirmation in order to get started.

Just an email would be sufficient.

Thanks very much in advance for your rapid response.

Lance

Subject: 33t revised eBOD project - request confirmation of HOD support

Dear Ishigaki-san,

Japan had brought its support to a project called electronic Bill of Delivery. After a lot of review and bilateral discussions between the proposers and the Bureau, a revised version of this project proposal was approved by the Bureau, with the knowledge of the project proposers. However, this is very different from the original project that you brought your support to.

I am attaching the updated version of the project proposal as it was approved by the Bureau. Would you please confirm your support of this project in its updated form?

Thank you very much in advance.

Best regards,

Lance
