Ämne: Open API generation from domain models - Request for HoD support

Dear UN/CEFACT Head of Delegation,

A UN/CEFACT project on "Open API generation from domain models" has been approved by the Bureau, pending three Head of Delegation support. You can find the project proposal on the following page on our CUE website: <https://uncefact.unece.org/display/uncefactpublic/Open+API+generation+from+domain+models>.

The role of UN/CEFACT Heads of Delegation is essential for the proper functioning of our work, not only for the validations and approvals during the Plenary sessions, but also for launching new projects. All projects that aim to create either a Recommendation, a Business Standard or a Technical Specification require three Head of Delegation support in order to be launched. This support does **not** imply that your organization or your delegation bring resources to this topic, although that is greatly appreciated for all projects when possible. This support does recognize that this topic is relevant to the scope and mandate of UN/CEFACT and that it would be a positive addition in our deliverables.

If you would like to support this project, please kindly confirm by returning this email.

Many thanks in advance for your consideration and continuing support!

Best regards,
Jie
