Doc 06 Explanatory Note BPA for TT standard

1. **Policy claims** – what they are exactly
2. **Requestor of Traceability** – what is he, what does he decides, determines, accepts
3. **Granularity** of products, processes and length of value chain, sub-contractors –how deep we will go?
4. **Identifications** and **certification schemes** – which ones to use?
5. **Linking product** and **related information** – how, what, when, costs
6. **Open source** and **existing standards** e.g. Traces/WCO HS etc – use and reuse
7. **Minimum requirements** and **costs** – need for further details
8. **Waste**, r**ecycling** and **circular** – through the supply chain, at the end, what's recycling and circular?
9. **Financers** – Need to take them in?

COLLABORATIVE UN/CEFACT ENVIRONMENT SPACE
Where to find the project and meeting materials ?

PROJECT PHYSICAL MEETINGS

PARIS	11-13 SEPTEMBER 2019	BACK TO BACK OECD BLOCKCHAIN POLICY FORUM
