

Conference Call #6

Sub-group 4 Pilots and capacity-building activities

Cotton blockchain pilot

Pilot core team, Andrea Redaelli and secretariat

01 | 07 | 2020, WebEx teleconference

1. Update on the procurement

Maria Teresa Pisani

2. User stories collection - Update halfway through and the approach to create transparency via sustainability (risks) criteria

Andrea Redaelli

3. Next steps and experts' subgroup input

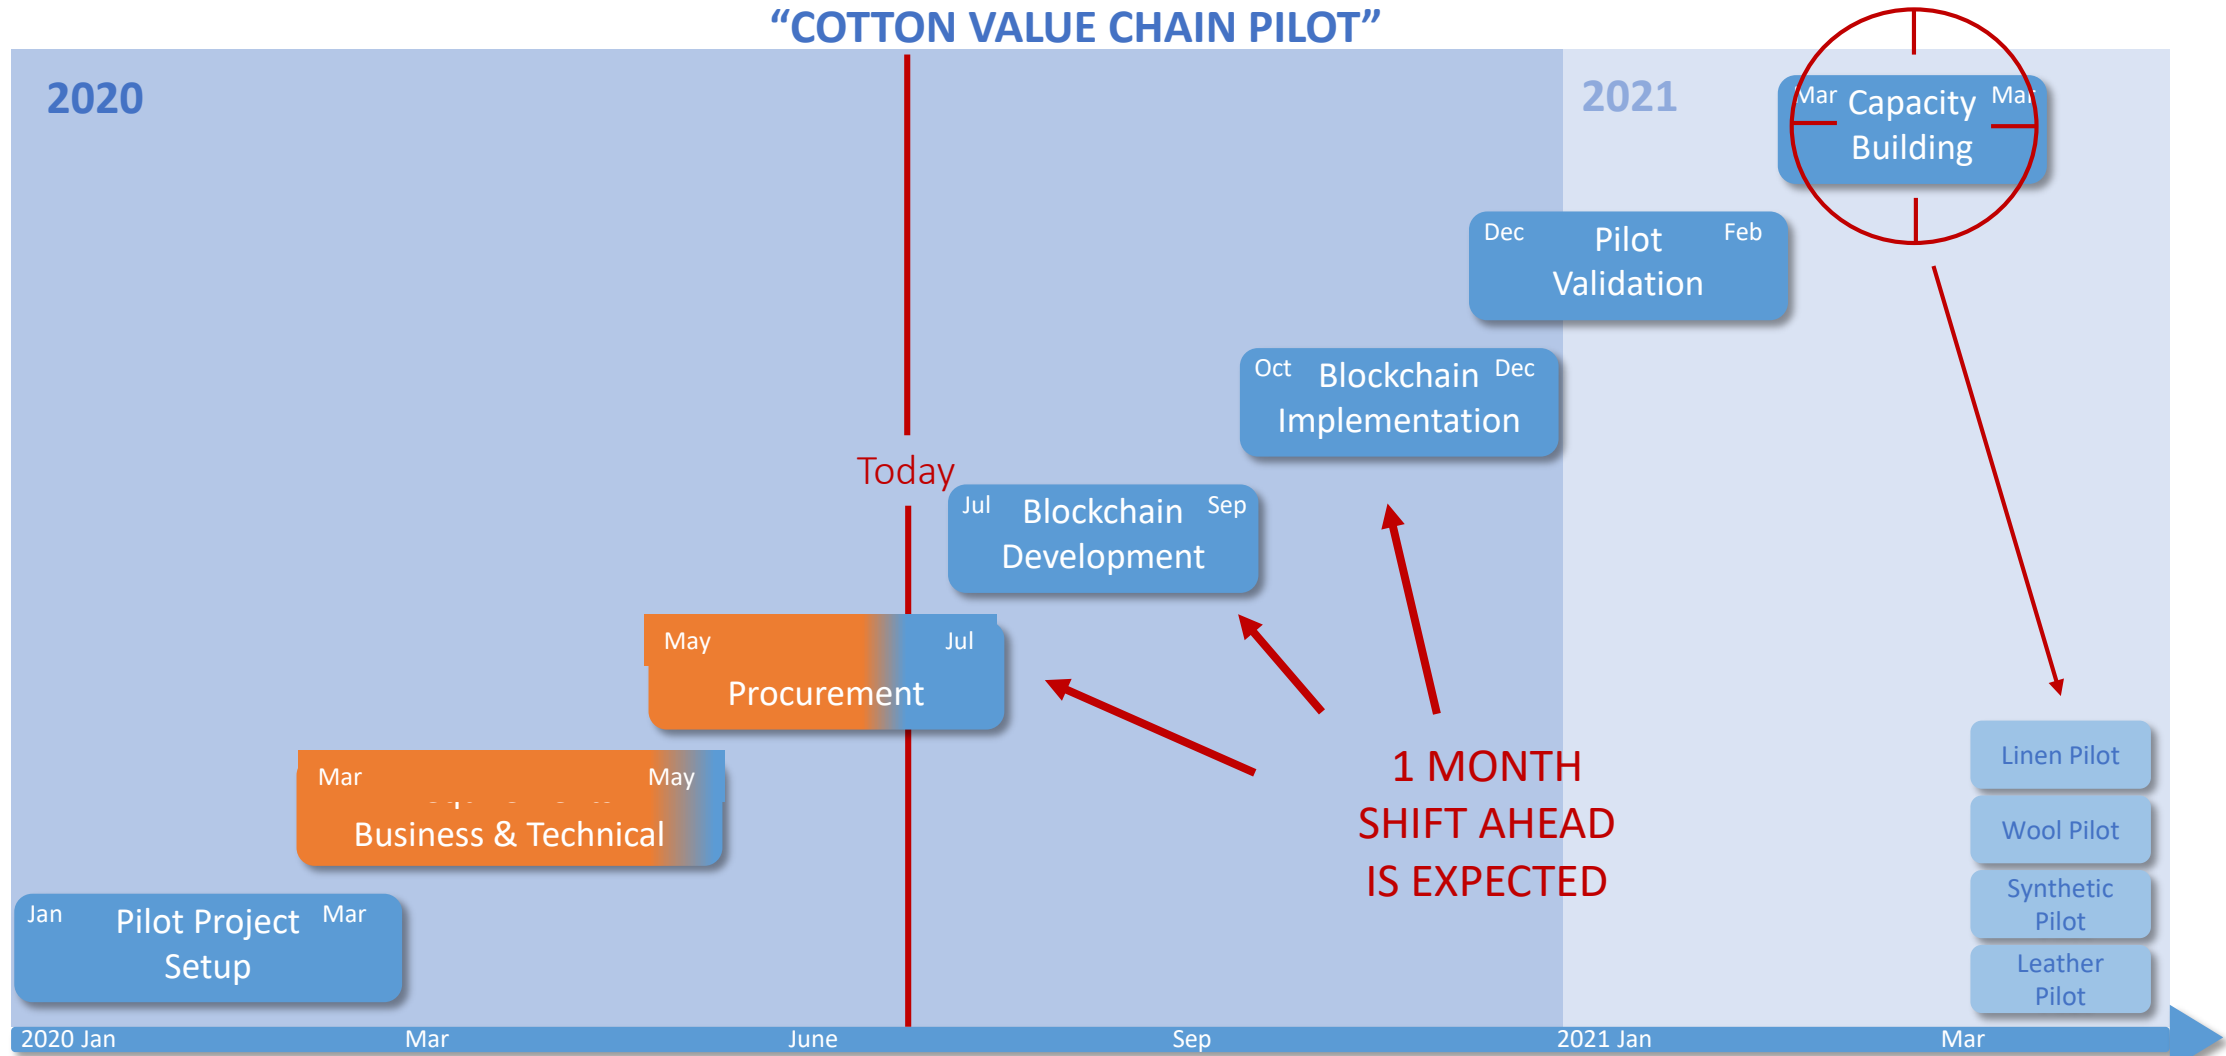

Maria Teresa Pisani

Background documents

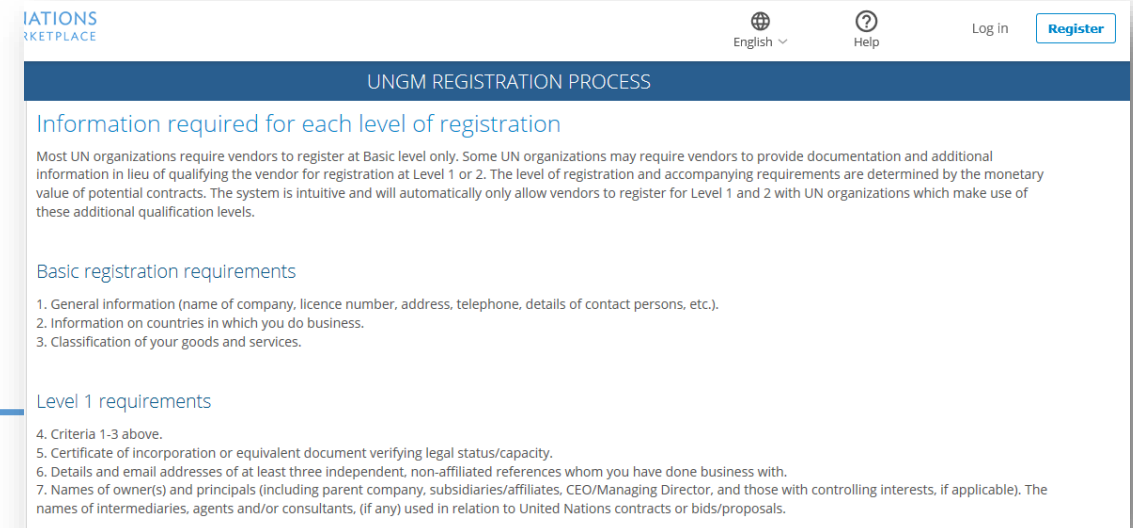

- Project document for a pilot on blockchain for traceability and due diligence in the cotton value chain and progress report (draft April 2020)
- Compilation of User Stories (29.06.2020)
- Minutes of Virtual conference #5 meeting 03.06.2020)

Pilot #1 - Implementing a blockchain technology for traceability and due diligence in the cotton value chain in support of a circular economy

“COTTON VALUE CHAIN PILOT”

1. Update on the procurement

UNECE

- Secretariat procurement procedure

Status: *completed*

- UNOG procurement action via [United Nations Global Marketplace](#)

Status: *ongoing*

TECHNOLOGY-SOLUTION PROVIDERS

- [Register](#) on United Nations Global Marketplace

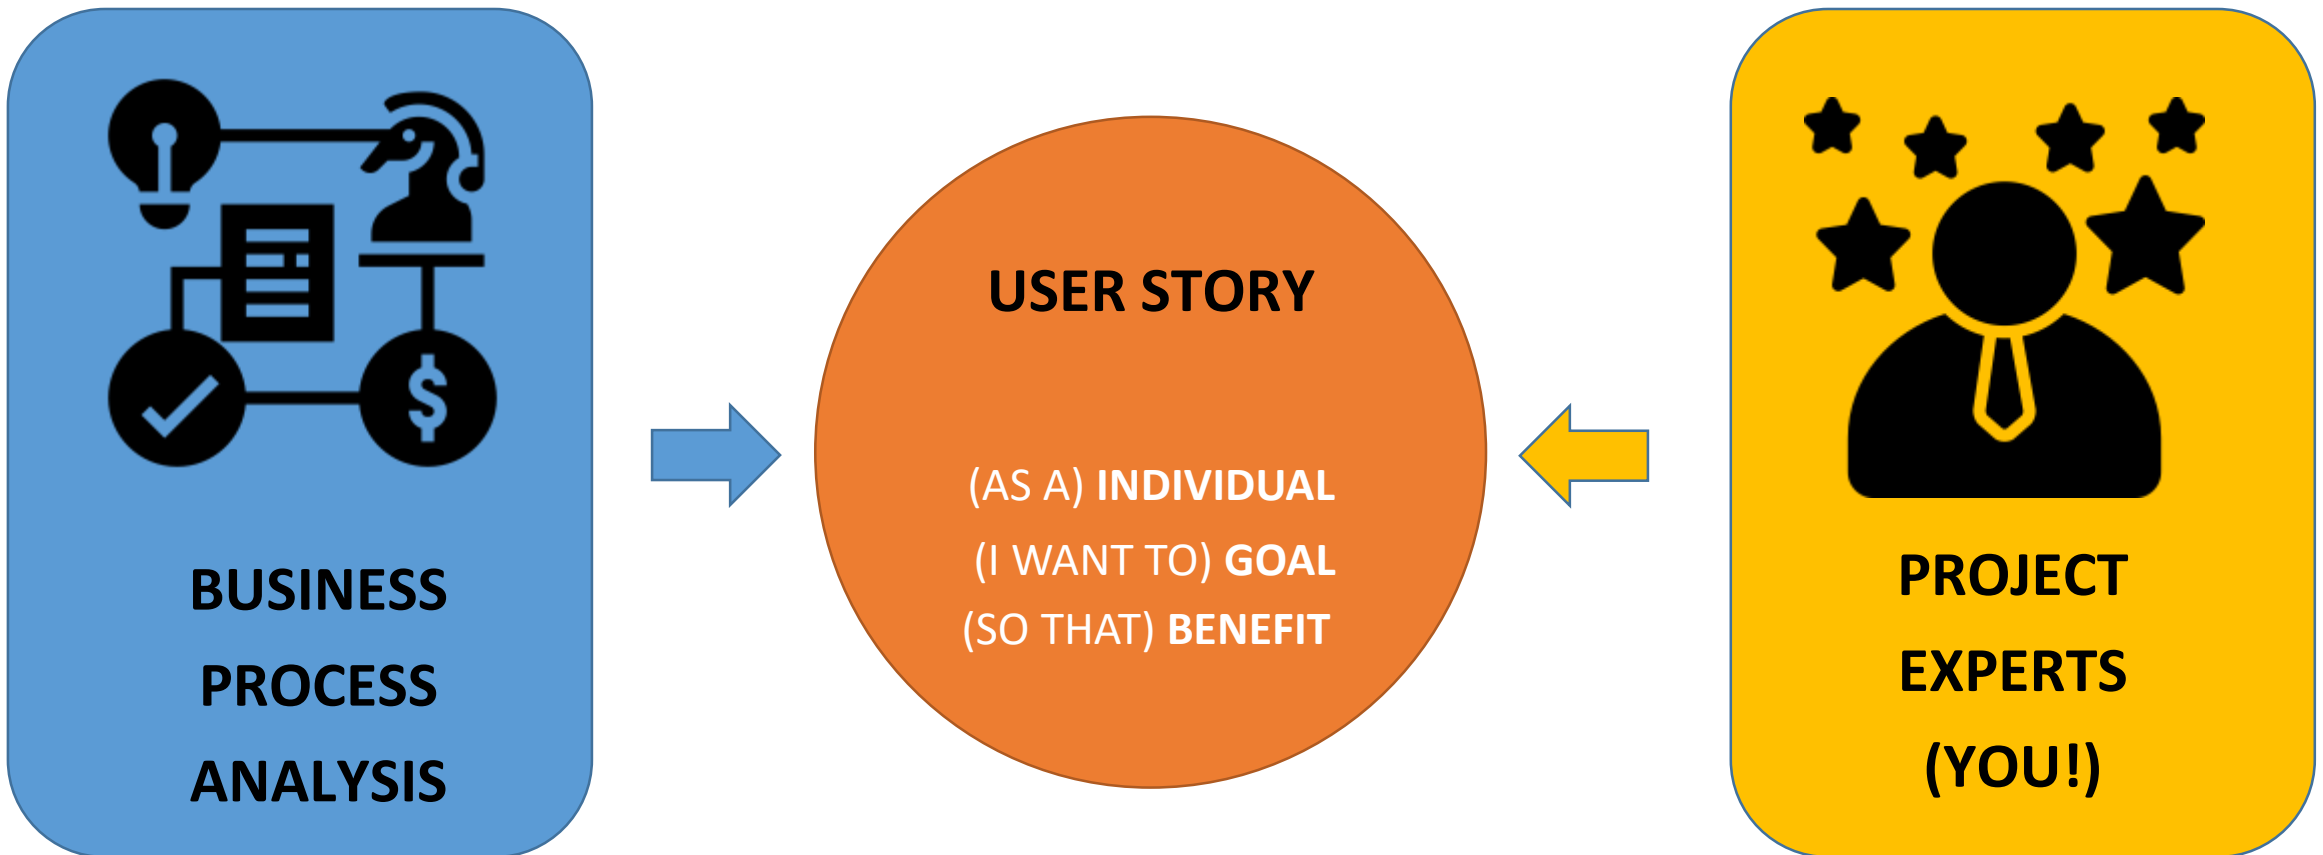

Status: *ongoing*

- Notification from the secretariat when procurement action is completed

Procurement time frame :

- Approx. 2 weeks before the launch of the call
- Approx. 2 weeks to receive quotations
- Approx. 1-1.5 week for evaluation
- 1 week for finalizing the PO etc.

Pilot #1 - Implementing a blockchain technology for traceability and due diligence in the cotton value chain in support of a circular economy

Pilot #1 - Implementing a blockchain technology for traceability and due diligence in the cotton value chain in support of a circular economy

1. Planting and Cultivation of Cotton

 + Pesticides ✓

2. Cotton Harvest, Identification & transfer from Farmer to Ginner

3. Ginning & transfer to Spinner ✓

4. Spinning and transfer to Weaver

5. Bleaching, dyeing, washing & transfer to Weaver ✓ + Chemicals

6. Weaving & transfer to Fabric Finisher(s) ✓

+ Chemicals

7. Fabric finishing and other treatments & transfer to Manufacturer" ✓

 + Chemicals

8. Garment or Product Production and transfer to Enoblement ✓

9. Product Enoblement and Packaging and transfer to "retailer"

10. Placement of Product in Stores or On-line for Sale

11. Consumption and Disposal

12. Post-Consumption Recycling

Pilot #1 - Implementing a blockchain technology for traceability and due diligence in the cotton value chain in support of a circular economy

1. Planting and Cultivation of Cotton

 + Pesticides ✓

2. Cotton Harvest, Identification & transfer from Farmer to Ginner

3. Ginning

4. Spinning

5. Bleaching & transfer to Weaver

✓ + Chemicals

6. Weaving & transfer to Fabric Finisher(s) ✓

+ Chemicals 

7. Fabric finishing and other treatments & transfer to Manufacturer" ✓

 + Chemicals

8. Garment or Product Production and transfer to Enable

9. Placement for Sale

10. Placement on-line for Sale

11. Consumption and Disposal

12. Post-Consumption Recycling

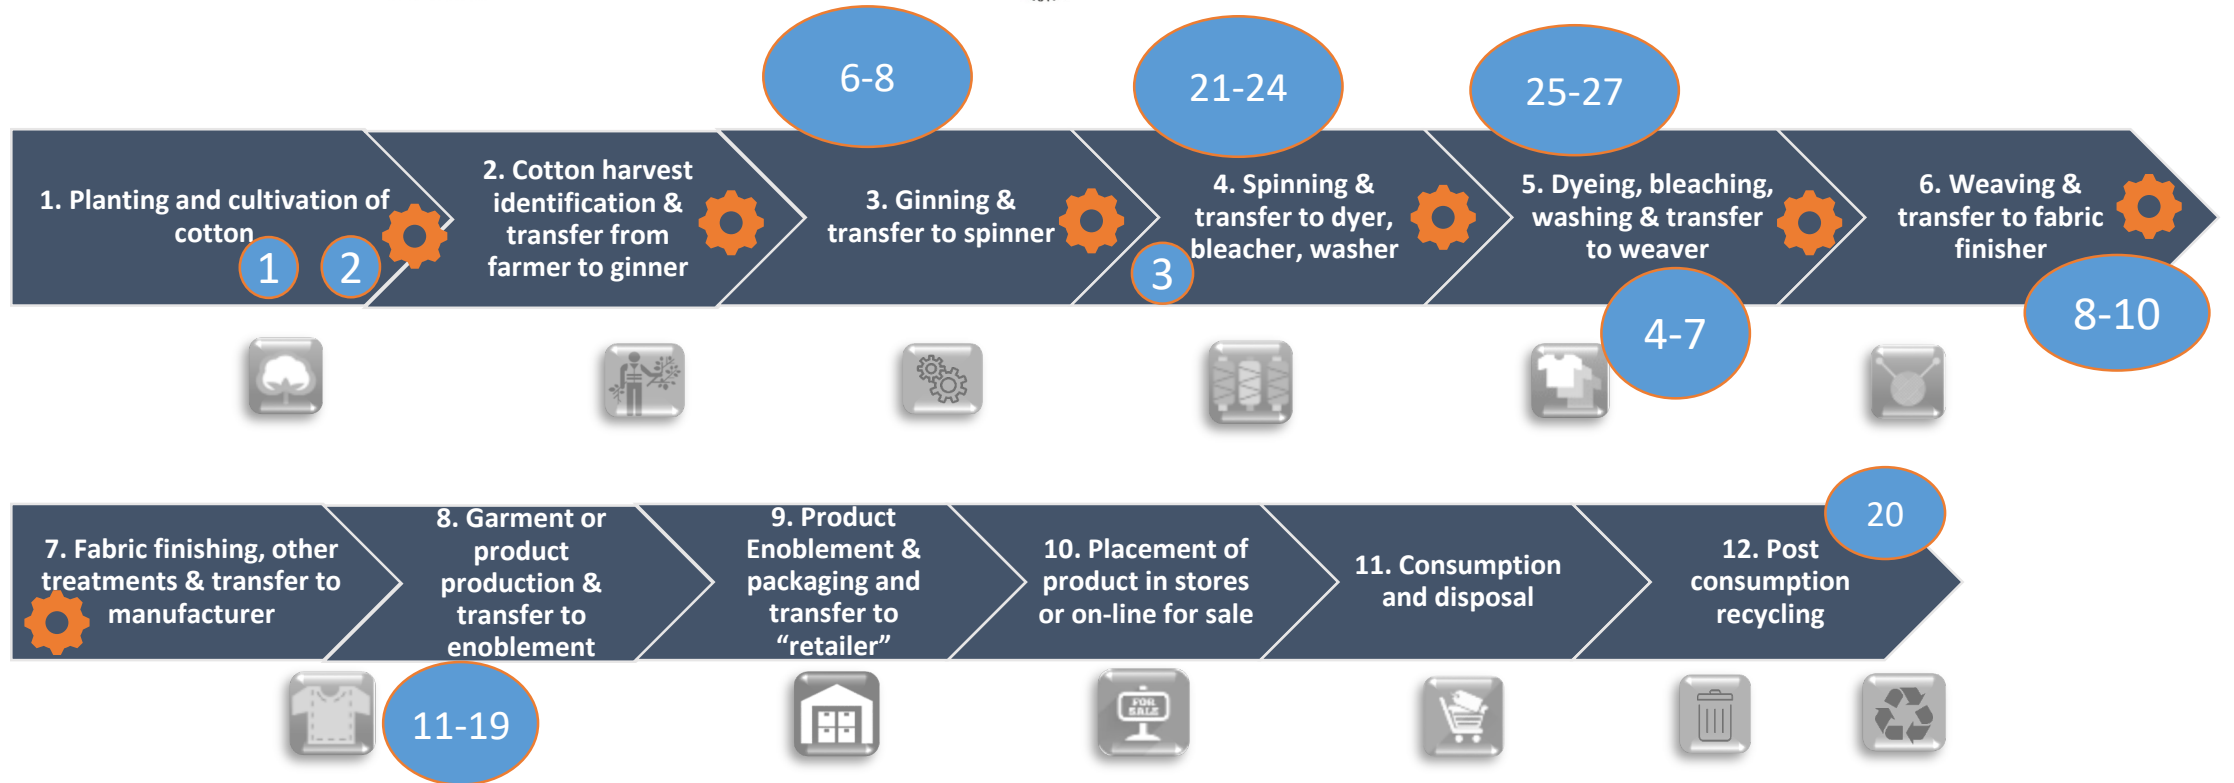

WHAT IS YOUR CORE BUSINESS AND DO YOU IMPACT THE COTTON VALUE CHAIN?

WHERE DO YOU POSITION YOUR USER STORY IN THE COTTON VALUE CHAIN?

WHO ARE YOUR MOST RELEVANT BUSINESS PARTNERS?

2. User stories collection - Update halfway through against generic use case for traceability in the cotton value chain (BPA) - Current Status

Bilateral sessions completed with implementing partners

User stories collected from the BPA and past bilateral sessions

Upcoming user stories to be collected based on past bilateral sessions

2. User stories collection - Update halfway through *User stories compilation document*

- *As requested by the experts the user stories compilation document*
- *Featuring 28 user stories along the cotton value chain*
- *Supporting material for technology-solution providers*

UNECE-UN/CEFACT Enhancing Transparency and Traceability for Sustainable Value Chains in Garment and Footwear

BUSINESS PROCESS 01: Planting and Cultivation of Cotton

User story #1 – No hazardous chemicals during farming		
AS A	I WANT TO	SO THAT
Farmer 	claim the chemical inventory list of fertilizer supplier 	the cotton product compliance confirms with ZDHC MRSL and avoid the use of hazardous chemicals in the next process steps. 
ACTIVITY DESCRIPTION	(complete) Order / delivery fertilizer -	

User story #2 – No hazardous chemicals during farming		
AS A	I WANT TO	SO THAT
Farmer 	provide an in-check report of my chemical inventory list (CIL) 	I can proof my chemical management performance 
ACTIVITY DESCRIPTION	(complete) Order / delivery fertilizer -	

2. User stories collection - Update halfway through and the approach to create transparency via sustainability (risks) criteria
Findings from the user stories collection

1. How to create **high value user stories**?
2. Which **sustainability criteria** to claim to create transparency in the cotton value chain ?
3. Which **information contributes to create transparency, traceability and due diligence** and then worth to publish on a blockchain platform?

2. User stories collection - Update halfway through and the approach to create transparency via sustainability (risks) criteria

Initial **sustainability criteria** identified during User stories collection:

- supplier details
- chemicals
- conventional/BCI/organic/recycled cotton
- water consumption
- waste water management
- origin of the material
- quality of products
- ISO certification
- social compliance

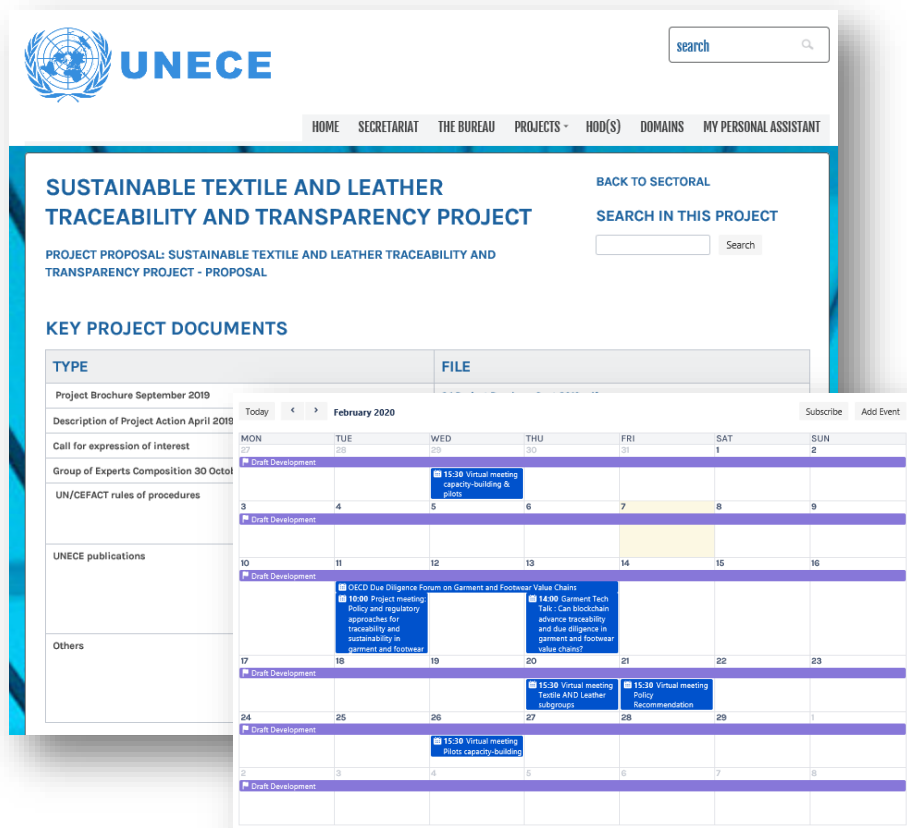

**Experts'
suggestions
and
feedbacks ?**

NEXT STEPS	
PROCUREMENT PHASE Publication online of the RFP for the blockchain solution	<i>Early July</i>
STORYTELLING «FIL ROUGE» BEHIND THE PILOT	<i>Ongoing</i>
BUSINESS PROCESS ANALYSIS (BPA) – SUBGROUPS 2 & 3 Collection of inputs for all 12 business processes of the value chain	<i>Ongoing</i>
USER STORIES DEFINITION with piloting partners for the technology-solution provider	<i>Ongoing to be completed by end July</i>
WORKSHOP W/ Technology-solution provider Definition of the business & technical requirements based on collection of BPA and users' stories.	<i>Early August</i>

COLLABORATIVE UN/CEFACT ENVIRONMENT SPACE

Where to find the project and meeting materials ?
