

Overview

Policy Recommendation

Enhancing Transparency and Traceability for
Sustainable Garment and Footwear Value Chains

OECD, Paris 11-02-2020

UN / CEFACT

Purpose

To support

The implementation of policy claims and regulatory compliance

In order to

Create Sustainable Garment and Footwear Value Chains

That

Make a positive contribution

to the United Nations Sustainable Development Goals, and the world,
as well as to their owners and stockholders

Purpose: To Help Policy Makers

Support brands, manufacturers and/or factories in their efforts to implement improvement plans and to self-assess themselves against recognized international initiatives, standards, codes of conduct and audit protocols.

Support developing countries, and groups at risk, *including women and other local-level stakeholders, who are often affected by unfair practices in this sector.*

Structure – In 2 Parts

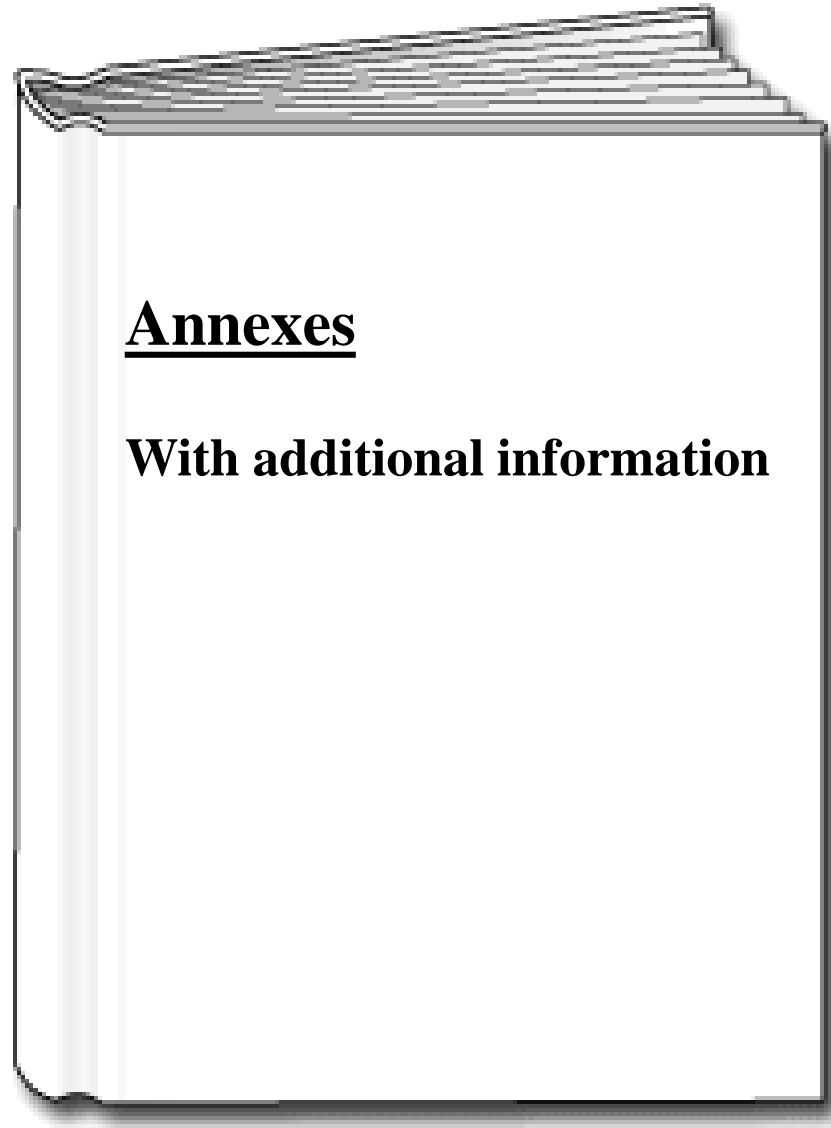

1) Recommendation

Primarily for Governments

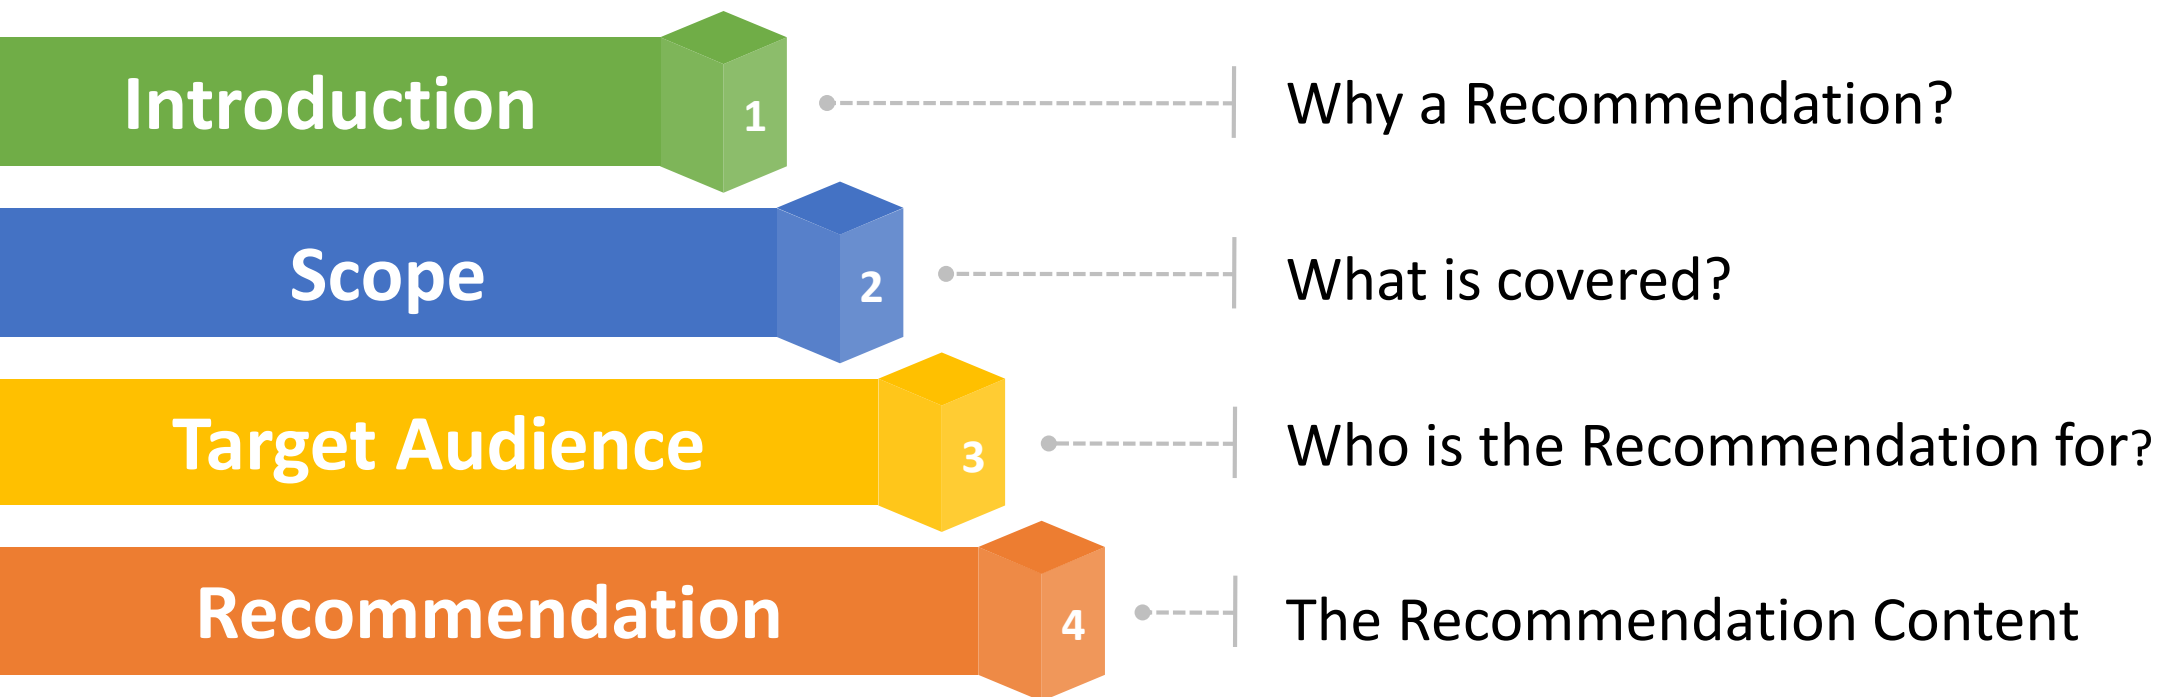

2) Guidelines

**Primarily for Implementing
Organizations**
