Status: A - APPROVED

UN-20-00007	EB-2020-0007	EB	TBG01	B	CR	DESADV	The consumer electronics product retailers need to transmit in the DESADV message the IMEI codes for a specific trade item number.	D
-------------	--------------	----	-------	---	----	--------	--	---

In a DESADV message up to 5000 individual IMEI codes can be required. Currently, in the DESADV, the IMEI code is transmitted in the PIA segment, DE 7143 using "SUF" code. It can only be repeated 10 times per line item.

The DESADV message needs to be properly updated to cover up to 5000 IMEI codes per item.
