

30 October 2015: Call for participation on Project "Supply Chain Reference Data Model (SCRDM)".

Following approval of the [SCRDM Project Proposal](#) this is to announce a call for participation.

This Project concerns developing a Supply Chain reference data model (SCRM), as a limited structured subset of the UN/CEFACT ebXML Core Components Library, providing semantic links especially between the Core Components and the EDIFACT implementations.

To register interest in participating or for more information please contact [Mr. Rolf Wessel](#).

The development of this Project can be followed on the UN/CEFACT Collaboration Environment <https://www2.unece.org/cefact>
