Subject: UK HOD formal support for one project and backing for another

Hi Lance, Maria,

I would like to express the UK's support for the "Procedures for Reference Data Model & Associated Artefacts Publication Project". I understand I will be the third HOD to do so. I believe the Forum's work on the Supply Chain SCRDM) and Multi Modal Transport (MMT) Reference Data Models is very advanced and this project is crucial for publication of the draft results for public review.

Furthermore, while not necessary according to the ODP, I would like to express the UK's backing for the second "Library Publication Format Project" as this is an important project to cement the new UN/CEFACT strategy for reference data model related deliverables as the project leader felt this would be beneficial for the project. I would be grateful if you would bring this to the Bureau's attention the UK's backing as and when appropriate.

Best,

G
