

RDM2API TS

Web-Meeting on 08.03.2022

UN / CEFAC

- Review of the latest state of the document (2022-03-08 version)
 - Andreas presented the updated draft document
 - For details, see change history in the document
 - Discussion: on which level to apply contextualisation?
 - Separate meeting for this topic scheduled for 2022-03-15, 13:00 CET
 - Representation of codes incl. description – possible in openAPI 3.1 – details see document. For the time being no meta-information to be attached to individual codes (although technically possible) – rather attached to the complete list (e.g. version or release number)
 - Andreas explained HATEOAS principles:
 - Discussion to be continued when dealing with API design rules

Next Meeting

- Next meeting:
 - 15.03.2022, 13:00 – 14.30 CET (sub-group)
 - 22.03.2022, 10:00 – 11:30 CET (complete project team)
- Topics to cover:
 - Rules / guidelines for contextualisation
 - Preparation for practical examples
