

**Minute / Feedback on working session on modeling on the 12 april 2017 am (made per Giangu & Bérengère)**

The minute is to put on Q .

- We are working on two main developments for the eCMR message

a) integrate the feedback received during the 29th UN/CEFACT Forum sessions and the new requirements of aligning the national french version of eCMR.

b) build the 2 missing messages according to the DRAFT Model.

- Today we have

1. Fix the CARRIER, we are trying to harmonise the French donneur d'ordres present in the national CMR introducing a new data element

We activated :

1/ address on +

2/ goods description in consignment item

3/ document handed to the carrier by the sender (box n°9° / transport document associated with consignment / goods at the goods item level (status, type, id, validity period as optional)

4/ Commodity code (up to 18 character) as e-CMR can be used a pre-arrival notification (code list identifier and code list agency identifier in goods type code as optional in order to put version of HS Code eventually.

5/ Different instructions : 4 in total

1- Custom instruction / consignor provided regulatory formalities

2- Sender instruction

3- Instruction from the carrier to the lorry driver

4- Services related on loading

NB : added transport setting instructions = loading instructions  
(diference between loading and handling)

Related services description and instructions on loading & unloading added into the message.

(need to ADD) Transport Services Buyer at Consignment level.R

2. (USE) Associated document is proposed to put an optional data element to capture a Related Document

3. (need to ADD) Consignor Provided Insurance Formalities Instructions // Cargo insurance instructions provided by the sesrvicé buyer / consignor

4. (need to ADD) Trans-shippment Permission Indicator

5. (need to ADD) Returnable Indicator at Consignment > Transport Package level  
exemple : boxes / pallets/ roll / removed / : returned at origin & pallets/ rolls delivered or taken at destination

6. (need to ADD) new message eCMR Receipt D17A MMT - we set up a generic Receipt message to cope with Goods Receipt and Proof of Delivery messages. For message 2a. goods receipt by carrier or 2b. proof of delivery by consignor.

7. (ADD , almost) new message eCMR Status D17A MMT

9. **To be done for the group by Sue :**

- **Diagram**
- **and excel**
- **availability on 25th April for mapping session by Friday 21st of April**
