UN/CEFACT Project Proposal

Small scaled Lodging House Information Project
May 18, 2004

1. Objectives

1.1 Purpose

The purpose of the project is to create Business Process Models and Business Class Diagrams for documenting the business scenarios and business transactions involved in Small scaled Lodging House Information process for the small scaled lodging house industry. The output will be used to obtain and validate the XML messages to support the business transactions.

1.2 Scope

The small scaled lodging house information project will be to provide buying parties with the lodging house information. The small scaled lodging houses are those that usually have around 100 guest rooms or less and serve meals as one of their typical services. They have more human touched services than large scaled ones. The variety of services is to be well supplied in the information.

2. Deliverables

The deliverables from the project are:
• A catalogue of Business Process Models covering all the small scaled lodging house information
• The class diagrams of the business transactions for the creation of the XML messages
• ABIEs, BBIEs, and CCs (if necessary), based on the UN/CEFACT Core Component Technical Specification
• XML messages to support the business transactions

3. Functional Expertise of Membership

The membership is open to experts with broad knowledge in the areas of small scaled lodging house services and their e-business operation, and the functions of UN/CEFACT and its groups. In addition Heads of Delegations may invite technical experts from their constituency to participate in the work. Experts are expected to contribute to the work based solely on their expertise and to comply with the UN/CEFACT Code of Ethics.

4. Geographical Focus

The focus is global and cross sectorial among travel industry within the functional area of the lodging houses.
5. Initial Contributions

A project team, ebXML Project Team for Ryokan (or Japanese type small scaled lodging house) Information is operational in Japan and the following drafted working documents could be submitted as part of this proposal. It is understood that these contributions are only for consideration by the project team and that other participants may submit additional contributions in order to ensure that as much information as possible is obtained from those with expertise and a material interest in the project.

- list of contributions:
  (a) a drafted catalogue of business process models covering all the small scaled lodging house information
  (b) drafted class diagrams of the business transactions for the creation of the XML messages
