Projects

Programme Development Areas

The UN/CEFACT structure has been deeply revised in order to enhance its potential to meet the needs of its stakeholders and to speed up processes to ensure timely deliverables through a streamlined management and a project oriented approach. Under the new structure the UN/CEFACT Programme of Work is supported through Programme Development Areas (PDAs), which bring together experts with a wide range of knowledge areas, to help formulate, recommend, undertake and monitor Projects. Project Teams are composed of experts and have the main role in developing and maintaining recommendations and standards.
