Submission of Core Components for Commercial Insurance

Project Purpose
The project's purpose is to prepare a submission of CCs for Commercial Insurance to the UN/CEFACT Core Component Library.

Project Scope
Over the last few years the insurance domain in UN/CEFACT has developed a complete set of core components for the administration of contracts. The focus was on private property and casualty insurance and on motor insurance for private vehicles and commercial fleets. Now the insurance domain will extend its development to commercial risks in property and casualty insurance.

Project Deliverables
The project deliverable is Submission of core components (ACC, BCC, ASCC) to the UN/CEFACT Core Component Library.

Exit Criteria
The project will be finalised when the submission of the core components and their harmonisation within UN/CEFACT succeeds in the publication of a UN/CEFACT CCL containing the new core components. If during the course of the project the project team membership falls to a level that the project goal cannot be reached anymore the project will closed.

Project Team Membership and Required Functional Expertise
Project members are representing ACORD, US and London, and eEG7, the European Forum for e-Business:
Michel Bormans, Telebib, Belgium
Phil Brown, ACORD London, UK
Paul Harris, ACORD Pearl River, US
Manuel Reimer, VDV and BiPRO, Germany
Secretary: John Abbott, ACORD London, UK

Geographical Focus
The geographical focus is global

Initial Contributions
The following contributions are submitted as part of this proposal. It is understood that these contributions are only for consideration by the Project Team and that other participants may submit additional contributions in order to ensure that as much information as possible is obtained from those with expertise and a material interest in the project. It is also understood that the Project Team may choose to adopt one or more of these contributions "as is".
ACORD P&C Standard
ACORD RLC Standard
eEG7 Data Model

Resource Requirements
Participants in the project shall provide resources for their own participation. The existence and functioning of the project shall not require any additional resources from the UNECE secretariat.

The project works on the resources of its members.
