Project Purpose

The project's purpose is to prepare a submission of CCs for the handling of property claims to the UN/CEFACT Core Component Library.

Project Scope

Over the last few years the insurance domain in UN/CEFACT has developed a complete set of core components for the handling of motor claims. Now the insurance domain will extend its development to the handling of property claims.

Project Deliverables

The project deliverables are

Submission of core components (ACC, BCC, ASCC) to the UN/CEFACT Core Component Library.

Exit Criteria

The project will be finalised when the submission of the core components and their harmonisation within UN/CEFACT succeeds in the publication of a UN/CEFACT CCL containing the new core components.

If during the course of the project the project team membership falls to a level that the project goal cannot be reached anymore the project will closed.

Project Team Membership and Required Functional Expertise

Project members are representing ACORD, US and London, and eEG7, the European Forum for e-Business:

Michel Bormans, Telebib, Belgium

Phil Brown, ACORD London, UK

Paul Harris, ACORD Pearl River, US

Manuel Reimer, VDV and BiPRO, Germany

Jan Vrijenhoek, SIVI, Netherlands

Secretary: John Abbott, ACORD London, UK

Head of Delegation Support

Initial Contributions

The following contributions are submitted as part of this proposal. It is understood that these contributions are only for consideration by the Project Team and that other participants may submit additional contributions in order to ensure that as much information as possible is obtained from those with expertise and a material interest in the project. It is also understood that the Project Team may choose to adopt one or more of these contributions "as is".
