

Public Review: Recommendation on Single Windows Interoperability

Public Review: Recommendation on Single Windows Interoperability

OPEN

UN/CEFACT is pleased to announce the opening of the Public Review period for Recommendation 36 - Single Window Interoperability (SWI). The new recommendation covers the mechanism required for the interconnectivity of two or more Single Window facilities. The recommendation also addresses the need for cross-border trade information exchange which requires the exchange of data/information beyond the National Single Window, i.e. across the border.

The 60 day Public Review period will end on November 20 2016.

Any comments should be submitted to the project's editor, Colin Laughlan, using the comment template.
