Discussion items

Time	Item	Who	Notes
2min	Attendance and apologies	BH	
1min	Outstanding actions	BH	Nil
2min	Confirm agenda	BH	Rec #49 presentation added
35min	Technical discussion	ALL	General direction seems sound but still quite early in the drafting process. Many comments still require resolution, some of them are fairly fundamental, so responses/input from other members needed. No actions arising, other than drafting to continue by all members.
20min	Rec#49 presentation by S. Capell	SC	There is much interest in the draft Conformity Credential Schema revealed by Steve. Possibly this could represent a structure around which we frame our ideas, or at least see where this leads.
