Project Details

Domain	Agriculture Fisheries and Agri food Domain
Project Identifier	P1093
Bureau Decision #	#2006013, #2007025; #2010048
Project Proposal Status	Official
Project Page	RASFF
Supporting VC	Benno Slot
Project Lead	Michael Dill
HoD Support	DE; ES; GR; RU; UA; US
Status	Completed
Version	3.0
Submitted date	2020-06-08
Draft Development Completion	2020-08-18
Publication Date	2020-11-17

Project Purpose

In 2012-2013, UN/CEFACT developed the Rapid Alert System for Food and Feed (RASFF). The resulting data requirements were published in the Core Component Library and the UN/CEFACT RASFF schema. However, the BRS did not seem to receive its final approval and was therefore never officially published. The standard therefore exists and is being used; however, it is not correctly published on the website because it is missing its official, finalized BRS.

The project will therefore enquire with the 2013 team for any existing material and put together a BRS which will correspond with the existing deliverable on the website.

Project Scope

Develop the BRS documenting the business requirements supporting the existing schema and Core Component Library objects concerning the RASFF.

This project does not plan to update the library entries or change the structure of the existing schema for RASFF. This may be the subject of a future project.

Project Deliverables

- Deliverable 1: RASFF BRS

Exit Criteria

- BRS ready for publication with comment log demonstrating that all comments have been taken into consideration

Geographical Focus

The geographical focus covers the globe, initial contribution is expected from European Union Member States and all countries interested.

Initial Contributions

- RASFF schema and CCL entries

Resource Requirements

Participants in the project shall provide resources for their own participation. The existence and functioning of the project shall not require any additional resources from the UNECE secretariat.
