Executive Summary

Project purpose

The project regards the common requirements for the processes that directly involve the alignment of Master Data Metering Point (MP) and Measured Data between parties in the deregulated Energy Market.

The purpose of the project is to derive specifications for Core Components from the process requirements and data structures regarding the alignment of Master Data Metering Point and Measured Data between parties in the deregulated Energy Market and publish these resulting specifications.

Project scope

- Specifications for Core Components for information exchange regarding
- data alignment between parties (including initial data exchange),
- within the deregulated Energy Market,
- for Master Data Metering Point and for Measured Data.

The results will be UN/CEFACT deliverables for information (category D).
