### Project Purpose

The purpose of the project is to create Business Process Models and Business Class Diagrams for documenting the business scenarios and business transactions involved in Small scaled Lodging House Information process for the small scaled lodging house industry. The output will be used to obtain and validate the XML messages to support the business transactions.

### Project Scope

The small scaled lodging house information project will be to provide buying parties with the lodging house information. The small scaled lodging houses are those that usually have around 100 guest rooms or less and serve meals as one of their typical services. They have more human touched services than large scaled ones. The variety of services is to be well supplied in the information.

### Project Deliverables

The deliverables from the project are:

A catalogue of Business Process Models covering all the small scaled lodging house information

The class diagrams of the business transactions for the creation of the XML messages

ABIEs, BBIEs, and CCs (if necessary), based on the UN/CEFACT Core Component Technical Specification

XML messages to support the business transactions
